

National Science Foundation
Research Experiences for Undergraduates (REU)
Computational Sensing - Summer 2016

-- College of Computing and College of Liberal Arts --
Rochester Institute of Technology

May 31, 2016 -- August 5, 2016

What you get:

Experience in acquisition and fusion of multisource sensing data.

Experience in using computing to make sense of human behavior/cognition in an interdisciplinary research environment.

A career-enhancing program.

\$5,000 stipend, up to \$725 for travel, \$1200 for meals, and housing included.

Deadline for applications:

**March 31st, 2016
11:59 p.m. EDT**

Apply today: <http://www.cs.rit.edu/~reu/>
